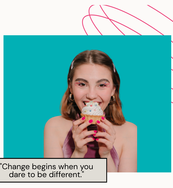
Learn more about our team

Juliana
Frontend developer

Juliana is a 19-year-old student who has cultivated a deep passion for programming, especially as a Frontend developer.

Her ambitious personality and focus on success have allowed her to lead various code and design projects.

In addition to her academic passions, Juliana balances her life with singing, reading, and exploring new places, demonstrating a versatility that enriches her perspective on her exciting journey into the future.



"Change begins when you dare to be different."

Santiago
Backend developer

Santiago, an 18-year-old student majoring in Interactive Media Design at the university, is a remarkable individual.

Alongside his academic pursuits, he holds a technical degree in software programming.

Santiago's multifaceted interests encompass a passion for video games, a commitment to his fitness journey at the gym, and a love for soccer.

What truly sets him apart is his prowess in backend programming.

"We only have one life"

Ana
User Interface designer

Ana Agudelo is a 24-year-old student in Interactive Media Design at university. She is a passionate and creative person, with a wide spectrum of interests.

In addition to her degree in Interactive Media Design, Ana also has a professional degree in Multimedia Production. This combination of skills gives him a unique perspective on digital media design and production.

Ana's interests are as varied as her personality. She loves to travel, explore new cultures and meet new people. She is also a great fan of music, animals and singing.

"Beauty is in the eye of the beholder."

Dilan
User Experience specialist

Dilan, a 20 year old student of Interactive Media Design at the university, is a person who always tries to help others in any way he can.

In addition to his elementary and high school studies, he holds a technical degree in basic software programming.

He is a very versatile person in terms of his multiple interests, which include his love for video games, movies, urban music and soccer.

What really makes him stand out is his ingenuity in design.

"Ligth Weigth"
